

dormakaba Ambiance Cloud Next Generation of Leading Hospitality Access Management Software

INDIANAPOLIS, June 24, 2024 – dormakaba's new Ambiance® Cloud is the next generation of the Ambiance Access Management Software. Developed for security and designed for users, the application streamlines access control management and integrates seamlessly into any hotel IT infrastructure.

"Ambiance Cloud takes our popular Ambiance solution to the next level by giving hotel managers flexibility," said Darien Long, SVP Specialty Access Control Solutions at dormakaba. "By existing in the cloud, there is no need for computers, servers, and routine backups, reducing costs and giving hotel managers more options. Ambiance Cloud can be maintained remotely without the need to involve any on-site personnel."

This 24/7 solution provides advanced encryption and data privacy protocols that work to safeguard both hotel and guest data in accordance with the strictest industry standards. In addition, in case of an internet outage, a module can be added that allows the property to continue encoding keys for a seamless guest experience. Information will be synched with the Ambiance Cloud when the system is back up and running.

Key Features Summary

- Cloud-based access management system built on foundation of industry-leading Ambiance software
- Seamlessly performs all access management tasks including guest check-in, staff card creation, lost / stolen card cancellation, and audit report creation
- Round-the-clock monitoring and system availability
- Instantaneous and automatic system updates, backups, and maintenance
- No need for local servers
- Intuitive and easy to use
- Advanced encryption and data privacy protocols
