

dormakaba Celebrates Opening of New Production Facility in Montreal

New plant will support the growing needs of hospitality and multifamily-housing customers

MONTREAL, July 11, 2024 – Global access solutions leader dormakaba today announced the opening of a new production facility in Montreal, Quebec. CEO Till Reuter and Executive Vice President for North America Ben Brydges joined dormakaba leadership, employees, and customers to celebrate the important milestone for dormakaba Canada Inc.

"We are pleased to enhance dormakaba's Access Control Solutions product operations in Montreal," said Brydges. "Our new production facility in Montreal will enable us to better meet the growing needs of our hospitality and multi-housing customers and serve as an incubator for new lodging system products."

The Montreal Plant employs approximately 600 people and produces more than 400,000 hospitality, vacation rental, and multifamily-housing electronic lock assembly units annually. This includes assembly of more than 2.2M Printed Circuit Board Assemblies (PCBA), which are used to make electronic locks and other electronic products at many dormakaba production facilities throughout the world.

The new facility consolidates three previous sites and moves multi-disciplinary teams, including procurement, R&D, and customer support, under one roof so they can see and touch the products that are being developed, assembled, and shipped to customers across North America as well as worldwide.

The Montreal Plant boasts an impressive safety record with more than two-and-a-half years without a recordable injury.

The new dormakaba Canada Inc. production facility is located at:

105 Blvd. Marcel-Laurin
Montreal, QC H4N 2M3
Canada
